

WOW!

Thank you Wendy from the centre of my heart. You have helped me so much over the last 12 months. I still recall vividly the time you switched "my batteries" back around the right way. A remarkable transformation.

I am amazed that I no longer use my puffers, selsun shampoo and bowel medicine. **WOW!** The puffers I started at the age of 13. The selsun commenced at around age 22. And the bowel medicine started around the age of 45. I cannot thank you enough for your encouragement and teachings that have helped me so much.

I still have heaps to learn and achieve but I understand now that anything really is possible.

Claire (Townsville, QLD)
