

It was so wonderful meeting you at the Life Success conference. I can't thank you enough for helping me. I struggled waking up in the morning for 40 years. I would exhibit an excruciating stomach ache and perspiration beyond belief. I have prayed that I would not wake up, so that I would not be faced with the symptoms every morning.

I thank God you were able to eliminate these symptoms. Using the EFT technique and your expertise and pure love for people, I am able to function and enjoy my day.

Thank you
Laura Sifrar (United States)
God Bless You
